CHAPTER 2 ANALYZING TRANSACTIONS

DISCUSSION QUESTIONS

- **1.** An account is a form designed to record changes in a particular asset, liability, stockholders' equity, revenue, or expense. A ledger is a group of related accounts.
- 2. The terms *debit* and *credit* may signify either an increase or a decrease, depending upon the nature of the account. For example, debits signify an increase in asset and expense accounts but a decrease in liability, capital stock, retained earnings, and revenue accounts.
- **3. a.** Assuming no errors have occurred, the credit balance in the cash account resulted from drawing checks for \$1,850 in excess of the amount of cash on deposit.
 - **b.** The \$1,850 credit balance in the cash account as of December 31 is a liability owed to the bank. It is usually referred to as an "overdraft" and should be classified on the balance sheet as a liability.
- **4. a.** The revenue was earned in October.
 - **b.** (1) Debit Accounts Receivable and credit Fees Earned or another appropriately titled revenue account in October.
 - (2) Debit Cash and credit Accounts Receivable in November.
- **5.** No. Errors may have been made that had the same erroneous effect on both debits and credits, such as failure to record and/or post a transaction, recording the same transaction more than once, and posting a transaction correctly but to the wrong account.
- **6.** The listing of \$9,800 is a transposition; the listing of \$100 is a slide.
- **7. a.** No. Because the same error occurred on both the debit side and the credit side of the trial balance, the trial balance would not be out of balance.
 - **b.** Yes. The trial balance would not balance. The error would cause the debit total of the trial balance to exceed the credit total by \$90.
- **8. a.** The equality of the trial balance would not be affected.
 - **b.** On the income statement, total operating expenses (salary expense) would be overstated by \$7,500, and net income would be understated by \$7,500. On the retained earnings statement, the beginning and ending retained earnings would be correct. However, net income and dividends would be understated by \$7,500. These understatements offset one another; ending retained earnings equity is correct. The balance sheet is not affected by the error.
- **9. a.** The equality of the trial balance would not be affected.
 - **b.** On the income statement, revenues (fees earned) would be overstated by \$300,000, and net

income would be overstated by \$300,000. On the retained earnings statement, the beginning retained earnings would be correct. However, net income and ending retained earnings would be

overstated by \$300,000. The balance sheet total assets is correct. However, liabilities (notes payable) is understated by \$300,000, and stockholders' equity (retained earnings) is overstated by \$300,000. The understatement of liabilities is offset by the overstatement of stockholders' equity (retained earnings); total liabilities and stockholders' equity is correct.

- 10. a. From the viewpoint of Surety Storage, the balance of the checking account represents an asset.
 - **b.** From the viewpoint of Ada Savings Bank, the balance of the checking account represents a liability.

PRACTICE EXERCISES

PE 2-1A

- 1. Debit and credit entries, normal debit balance
- 2. Credit entries only, normal credit balance
- 3. Debit and credit entries, normal credit balance
- 4. Credit entries only, normal credit balance
- 5. Credit entries only, normal credit balance
- 6. Debit entries only, normal debit balance

PE 2-1B

- 1. Debit and credit entries, normal credit balance
- 2. Debit and credit entries, normal debit balance
- 3. Debit entries only, normal debit balance
- 4. Debit entries only, normal debit balance
- 5. Debit entries only, normal debit balance
- 6. Credit entries only, normal credit balance

PE 2-2A

Feb.	12	Office Equipment	18,000	
		Cash		7,000
		Accounts Payable		11,000

PE 2-2B

		Cash		16,000

PE 2-4B

June	30	Dividends	11,500	
		Cash		11,500

PE 2-5A

Using the following T account, solve for the amount of cash receipts (indicated by ? below).

	С	ash	
Feb. 1 Bal.	14,750	93,400	Cash payments
Cash receipts	?		
Feb. 28 Bal.	15,200		

\$15,200 = \$14,750 + Cash receipts - \$93,400 Cash receipts = \$15,200 + \$93,400 - \$14,750 = \$93,850

PE 2-5B

Using the following T account, solve for the amount of supplies expense (indicated by ? below).

	Suppli	es	
Aug. 1 Bal.	1,025	?	Supplies expense
Supplies purchased	3,110		_
Aug. 31 Bal.	1,324		-

\$1,324 = \$1,025 + \$3,110 - Supplies expense Supplies expense = \$1,025 + \$3,110 - \$1,324 = \$2,811

PE 2-6A

- a. The totals are unequal. The credit total is lower by \$900 (\$5,400 \$4,500).
- b. The totals are equal since both the debit and credit entries were journalized and posted for \$720.
- c. The totals are unequal. The debit total is higher by \$3,200 (\$1,600 + \$1,600).

PE 2-6B

- a. The totals are equal since both the debit and credit entries were journalized and posted for \$12,900.
- b. The totals are unequal. The credit total is higher by \$1,656 (\$1,840 \$184).
- c. The totals are unequal. The debit total is higher by \$4,500 (\$8,300 \$3,800).

PE 2-7A

a.	Utilities Expense	7,300	
	Miscellaneous Expense		7,300
	Utilities Expense	7,300	
	Cash		7,300

Note: The first entry in (a) reverses the incorrect entry, and the second entry records the correct entry. These two entries could also be combined into one entry as shown below; however, preparing two entries would make it easier for someone to understand later what happened and why the entries were necessary.

Utilities Expense	14,600	
Miscellaneous Expense		7,300
Cash		7,300

b.	Accounts Payable	6,100	
	Accounts Receivable		6,100

PE 2-7B

a.	Cash	8,400	
	Accounts Receivable		8,400

b. Supplies	2,500	
Office Equipment		2,500
Supplies	2,500	
Accounts Payable		2,500

Note: The first entry in (b) reverses the incorrect entry, and the second entry records the correct entry. These two entries could also be combined into one entry as shown below; however, preparing two entries would make it easier for someone to understand later what happened and why the entries were necessary.

Supplies	5,000

CHAPTER 2 Analyzing Transactions

Ex. 2-22

a.	Cash	17,600	
	Fees Earned		8,800
	Accounts Receivable		8,800

b.	Accounts Payable*	1,760	
	Supplies Expense		1,760

Supplies	1,760	
Cash		1,760

^{*} The first entry reverses the original entry. The second entry is the entry that should have been made initially.

Ex. 2-23

a. 1. Revenue:

\$2,033 million increase (\$67,390 – \$65,357) 3.1% increase (\$2,033 ÷ \$65,357)

2. Operating expenses:

\$1,454 million increase (\$62,138 – \$60,684)

2.4% increase (\$1,454 ÷ \$60,684)

3. Operating income:

\$579 million increase (\$5,252 - \$4,673)

12.4% increase (\$579 ÷ \$4,673)

b. During the recent year, revenue increased by 3.1%, while operating expenses increased by only 2.4%. As a result, operating income increased by 12.4%, a favorable trend from the prior year.

a. 1. Revenue:

\$13,764 million increase (\$421,849 – \$408,085) 3.4% increase (\$13,764 ÷ \$408,085)

2. Operating expenses:

\$12,224 million increase (\$396,307 – \$384,083) 3.2% increase (\$12,224 ÷ \$384,083)

3. Operating expenses:

\$1,540 million increase (\$25,542 - \$24,002) 6.4% increase (\$1,540 ÷ \$24,002)

- b. During the recent year, revenue increased by 3.4%, while operating expenses increased by 3.2%. As a result, operating income increased by 6.4%, a favorable trend from the prior year.
- c. Because of the size differences between Target and Walmart (Walmart has over 6 times the revenue), it is best to compare the two companies on the basis of percent changes. Target and Walmart increased their revenue from the prior year by approximately the same percent (3.1% for Target and 3.4% for Walmart). However, Target's operating expenses increased by only 2.4% compared to Walmart's 3.2% increase. As a result, Target's operating income increased by 12.4% compared to Walmart's 6.4% increase. Based upon this analysis, it appears that Target was better able to control its operating expenses as its revenue increased than was Walmart.

- 4. \$9,145 (\$22,650 \$5,100 \$4,200 \$2,480 \$975 \$750)
- 5. As will be discussed in Chapter 3, various adjustments are normally required at the end of the accounting period. For example, adjustments for supplies used, insurance expired, and depreciation would probably be required.

Note to Instructors: At this point, students have not been exposed to depreciation, but some insightful students might recognize the need for recording supplies used and insurance expired. You might use this as an opportunity to discuss what is coming in Chapter 3.

Prob. 2–4A

2. and 3.

	70,300	70,3

- 4. \$11,260 (\$23,100 \$4,800 \$3,000 \$2,240 \$700 \$1,100)
- 5. As will be discussed in Chapter 3, various adjustments are normally required at the end of the accounting period. For example, adjustments for supplies used, insurance expired, and depreciation would probably be required.

Note to Instructors: At this point, students have not been exposed to depreciation, but some insightful students might recognize the need for recording supplies used and insurance expired. You might use this as an opportunity to discuss what is coming in Chapter 3.

Prob. 2-4B

2. and 3.

CASES & PROJECTS

CP 2-1

Acceptable ethical conduct requires that Gil look for the difference. If Gil cannot find the difference within a reasonable amount of time, he should confer with his supervisor as to what action should be taken so that the financial statements can be prepared by the 5 o'clock deadline. Gil's responsibility to his employer is to act with integrity, objectivity, and due care, so that users of the financial statements will not be misled.

CP 2-2

The following general journal entry should be used to record the receipt of tuition payments in advance of classes:

Cash XXXX	
Unearned Tuition Deposits	XXXX

Cash is an asset account, and Unearned Tuition Deposits is a liability account. As the classes are taught throughout the term, the unearned tuition deposits become earned revenue.

CP 2-3

The journal is called the book of original entry. It provides a time-ordered history of the transactions that have occurred for the firm. This time-ordered history is very important because it allows one to trace ledger account balances back to the original transactions that created those balances. This process is called an "audit trail." If the firm recorded transactions by posting to ledgers directly, it would be nearly impossible to reconstruct actual transactions. The debits and credits would all be separated and accumulated into the ledger balances. Once the transactions become part of the ledger balances, the original transactions would be lost. That is, there would be no audit trail, and any errors that might occur in recording transactions would be almost impossible to trace. Thus, firms first record transaction debits and credits in a journal. These transactions are then posted to the ledger to update the account balances. The journal and ledger are linked using posting references. This allows an analyst to trace the transaction flow forward or backward, depending on the need.

CP 2-

1. The rules of debit and credit must be memorized. Dot is correct in that the rules of debit and credit could be reversed as long as everyone accepted and abided by the rules. However, the important point is that everyone accepts the rules as the way in which transactions should be recorded. This generates uniformity across the accounting profession and reduces errors and confusion. Since the current rules of debit and credit have been used for centuries, Dot should adapt to the current rules of debit and credit, rather than devise her own.

The primary reason that all accounts do not have the same rules for increases and decreases is for control of the recording process. The double-entry accounting system, which includes both (1) the rules of debit and credit and (2) the accounting equation, guarantees that (1) debits always equal credits and (2) assets always equal liabilities plus stockholders' equity. If all increases in the account were recorded by debits, then the control that debits always equal credits would be removed. In addition, the control that the normal balance of assets is a debit would also be removed. The accounting equation would still hold, but the control over recording transactions would be weakened.

Dot is correct that we could call the left and right sides of an account different terms, such as "LE" or "RE." Again, centuries of tradition dictate the current terminology used. One might note, however, that in Latin, *debere* (debit) means left and *credere* (credit) means right.

2. The accounting system may be designed to capture information about the buying habits of various customers or vendors, such as the quantity normally ordered, average amount ordered, number of returns, etc. Thus, in a sense, there can be other "sides" of (information about) a transaction that are recorded by the accounting system. Such information would be viewed as supplemental to the basic double-entry accounting system.

CP 2-5

a. Although the titles and numbers of accounts may differ, depending on how expenses are classified, the following accounts would be adequate for recording transaction data for Eagle Caddy Service:

	Balance Sheet Accounts	Income Statement Accounts	
	1. Assets		4. Revenue
11	Cash	41	Service Revenue
12	Accounts Receivable		
13	Supplies		5. Expenses
		51	Rent Expense
	2. Liabilities	52	Supplies Expense
21	Accounts Payable	53	Wages Expense
		54	Utilities Expense
	3. Owner's Equity	55	Miscellaneous Expense
31	Cory Neece, Capital		
32	Cory Neece, Drawing		

b.	EAGLE CADDY SERVICE					
Income Statement						
	For Month Ended June 30, 2014					
	Service revenue		\$11,400			
	Expenses:					
	Rent expense	\$3,500				
	Supplies expense	1,925				
	Wages expense	850				
	Utilities expense	340				
	Miscellaneous expense	395				
	Total expenses		7,010			
	Net income		\$ 4,390			

Note to Instructors: Students may have prepared slightly different income statements, depending upon the titles of the major expense classifications chosen. Regardless of the classification of expenses, however, the total sales, total expenses, and net income should be as presented above.

T accounts are not required for the preparation of the income statement of Eagle Caddy Service. The following presentation illustrates one solution using T accounts. Alternative solutions are possible if students used different accounts. In presenting the following T account solution, instructors may wish to emphasize the advantages of using T accounts (or a journal and four-column accounts) when a large number of transactions must be recorded.

c. \$6,265, computed in the following manner:

Cash receipts:		
Initial investment	\$2,000	
Cash sales	9,600	
Collections on accounts	<u>1,500</u>	
Total cash receipts during June		\$13,100
Cash disbursements:		
Rent expense (\$500 + \$600 + \$2,400)	\$3,500	
Supplies purchased for cash	750	
Wages expense	850	
Payment for supplies on account	1,000	
Utilities expense	340	
Miscellaneous expense	<u>395</u>	

6.835

\$ 6.265

Total cash disbursements during June.....

Cash on hand according to records*.....

d. The difference of \$90 (\$6,265 – \$6,175) between the cash on hand according to records (\$6,265) and the cash on hand according to the count (\$6,175) could be due to many factors, including errors in the record keeping and withdrawals made by Cory.

CP 2-6

Note to Instructors: The purpose of this activity is to familiarize students with the job opportunities available in accounting or in fields that require (or prefer) the employee to have some knowledge of accounting.

An example of an advertisement for an accounting job is shown on the next page.

Source: CareerBuilders.com

^{*} If the student used T accounts in completing part (b), or this part, this amount (\$6,265) should agree with the balance of the cash account.

CP 2-6 (Continued)

ACCOUNTING MANAGER Accountants One

JOB SNAPSHOT:

Location: North East metro Atlanta area, GA Experience: 3 to 8 years

Base Pay: \$60,000–\$65,000/Year Travel: None

Other Pay: Excellentcorporate benefits

Relocation Covered: No
Employee Type: Full-Time

Post Date: 5/9/2011
Industry: Manufacturing

Contact Information

Manages Others: Yes Contact:

Job Type: Accounting Phone: 555-395-6969 Education: 4-Year Degree Ref ID: RD5694

DESCRIPTION:

EAST REGION FINANCIAL INSTITUTIONS DIRECTOR Jefferson Wells

JOB SNAPSHOT:

Location: Atlanta, GA 30301 Experience: Not Specified

Employee Type: Full-Time Travel: Up to 50%
Industry: Accounting—Finance Post Date: 5/17/2011
Manages Others: Yes Contact Information
Job Type: Accounting Ref ID: 1294

DESCRIPTION:

Directors at Jefferson Wells are crucial to our success. They bring a wealth of experience and knowledge to our various service offerings and are responsible for ensuring the development and execution of the strategic plan for their respective market. Their goal is to drive the development of the Solution Area with the goal of significant growth and profitability. They provide technical expertise and leverage a network of clients and contacts. The Director plays a critical role in the leadership and development of our Engagement Managers and Professional Consultants.

Directors create and implement the Marketing Operating Plan, as well as create revenue strategies to meet revenue targets. They drive development and execution of effective client solutions to key targets. Directors work closely with Business Development Managers on proposals and business development calls. Directors serve as the business advisor to clients to ensure quality assurance standards are met. They manage, direct, and monitor multiple client services teams on client engagements. They maintain strong communication with clients to manage expectations, ensure client satisfaction and adherence to deadlines. Other key success factors include:

- Solid history of excellent performance, management capability, and revenue growth
- Proven ability to drive a business including selling, work plan development, proposal writing, and overseeing service delivery
- Management experience of a large group of professionals of 10 or more, with demonstrated history of building a solution area—hiring, training, and mentoring
- Demonstrated ability in developing meaningful client relationships, and capacity to bring and leverage relationships to Jefferson Wells

The East Region Financial Institutions Director works under the general supervision of the East Region Vice President and has a dotted line relationship to the Managing Directors in the region. This Director will be recognized as a financial institution industry leader with expertise in the areas of commercial and residential loan origination/servicing, deposit operations, and the corresponding GAAP accounting requirements as well as regulatory compliance. He/she will be accountable for overseeing the following projects/activities at Jefferson Wells' financial institution clients in one or all of the following areas:

- Regulatory Compliance including Loan Compliance and BSA/AML
- Troubled Debt Restructuring
- Enterprise Risk Management
- Loan Reviews (Commercial and/or Consumer) and Credit Risk
- FAS 15 and FAS 114
- Foreclosure Application Processing
- Loss Mitigation
- Financial Process Documentation and Improvement
- Policy and Procedure Development

CP 2-6 (Concluded)

Jefferson Wells (www.jeffersonwells.com) delivers professional services in the areas of internal audit and controls, technology risk management, tax, and finance and accounting-related services. The firm's unique, agile structure aligns experienced professionals with proven processes to deliver pragmatic and cost-effective results. Headquartered in Milwaukee, Jefferson Wells serves clients, including Fortune 500 and Global 1000 companies, from offices worldwide. Jefferson Wells is an independently operating, wholly owned subsidiary of ManpowerGroup. (NYSE: MAN).

Jefferson Wells is an Equal Opportunity Employer.

REQUIREMENTS:

- Minimum 12 years or more of clearly progressive, professional development in the general area of accounting services/internal auditing, including a mix of public accounting and managerial level financial institution industry experience
- Bachelor's degree in accounting
- CPA, CIA, and/or MBA preferred
- Consulting delivery experience
- Strong leadership skills
- Senior-level internal compliance experience within a large financial institution
- Willingness and ability to travel
