Answer: Direct investing – buy bonds and stocks; Indirect investing – buy mutual funds, contribute to pension plans, buy life insurance policies.

Difficulty: Easy

Ref: Organizing Financial Assets

2. Compare the cash flows an investor expects from coupon bonds, zero-coupon bonds, and preferred stock.

Answer: Coupon bonds – annuity of interest payments plus lump sum of principal at maturity
Zero-coupon bonds – principal at maturity
Preferred stock – annuity ad infinitum (perpetuity)

Difficulty: Moderate

Ref: Fixed-Income Securities

3. How is the earnings retention rate related to the dividend payout rate?

Answer: Earnings retention rate = 1 - dividend payout rate

Difficulty: Moderate

Ref: Equity Securities

4. How is the total book value of equity affected by stock splits?

Answer: Stock splits do not affect total value of equity or the individual accounts, other than the number of shares outstanding and the par value.

Difficulty: Moderate

Ref: Equity Securities

5. In what sense is a stock selling for 12 times earnings “cheaper” than a stock with a P/E ratio of 20?

Answer: If a stock is trading at 12 times earnings, it is cheaper than the one trading at 20 times earnings in the sense investors get \$1 of earnings for only a \$12 investment in buying the stock.

Difficulty: Moderate

Ref: Equity Securities

6. What are two direct and one indirect method for individuals to invest in foreign stocks?

Answer: Buy securities directly through exchanges or as American depository receipts and indirectly through mutual funds.

Difficulty: Moderate

Ref: Organizing Financial Assets, Equity Securities

7. Explain how writing option contracts (both puts and calls) can generate income for owners of the underlying stock.

Answer: The writer keeps the option premium regardless of whether or not the option is exercised.

Difficulty: Moderate

Ref: Derivative Securities

8. Rank (lowest to highest) the following securities in terms of the risk-expected return tradeoff from the investors' viewpoint: common stock, corporate bonds, U.S. Treasury bonds, preferred stock.

Answer: U.S. Treasury bonds, corporate bonds, preferred stock, common stock
Difficulty: Moderate
Ref: Fixed-Income Securities, Equity Securities

9. What are some advantages of asset-backed securities to investors?

Answer: High yields with manageable risk.
Difficulty: Moderate
Ref: Fixed-Income Securities
